OFFICIAL PAPER OF YOLO COUNTY.

WOODLAND, CAL.
Thursday, June 29th, 1876.

DEMOCRATIC NATIONAL CONVENTION.

At a quarter past twelve, June 27th, Augustus Schell, of New York, Chairman of the National Committee, called the Convention to order, and in a brief speech said that the ticket presented should be one that would embody the idea of administration reform. That was what the people desired. The Government was to be kept clear of stain. The people would not again place in power those who had violated their pledges and brought about the present state of affairs. Another overwhelming question was that of currency. The Democratic party has always been a hard-money one, and consequently an honest party. The Republican party has brought upon the country the present hard times by their reckless management of finances. The Democratic party should be in favor of the Resumption act, against all inflation schemes. The time is auspicious for the success of reform in this as in other matters connected with the Government, and it was for this Convention to start a good work and march on to victory and prosperity to the Union. Mr. Schell concluded by presenting Henry Waterson, of Kentucky, as the choice of the National Committee for Temporary Chairman. Messrs. Ratson, of North Carolina, and Barnum, of Connecticut, were appointed a committee to conduct Waterson to the chair.

Mr. Waterson was received with cheers. He said: We are called together to determine by our wisdom whether an honest Government, adulterated by honest men, shall be restored to the American people, or to decide by our folly that it is the destiny of this country to pursue an endless ever-revolving circle of partisan passion and corruption, until with the loss of our national well-being we lose the poor man's last best hope—civil liberty itself. Every citizen of the Republic, be he of the one party or the other, feels, and has felt for many a day, the depressing influence of what are called "hard times." We look about us and we see neglected fields and vacant houses. The factory is closed; the furnace door is shut; there are myriads of idle hands. The happy activity of prosperous life is nowhere to be found; lobbyists fatten whilst honest men starve. Empty the mart and shipless the bay. What has wrought so great a change in a land that, under the rule of an intelligent, progressive, constitutional party, has advanced, within half a century, from the condition of a huddle of petty and squalid provincial sovereignties to a foremost place amongst the nations of the earth? The reason of men must answer: partisan misrule and sectional misdirection. The Republicans, my friends, are not alone responsible. With them rests the disgrace, with us the follies. These twin agents of national misfortune, working under the miserable rule of factions have kept the people of the North and South asunder, and have supplied sustenance to corruption. They have disturbed values; they have unsettled prices; they have made our whole financial system a cheat and a snare. They have driven the best elements of political society into exile and have organized charlatanism into a sort of public policy, enabling the rogue to get a cheap advantage of his dupe, and sacrificing every popular interest to the lust of that oligarchy which has become so encrusted with power as to believe itself entitled to rule by the sheer force of its wrong doing. He was frequently cheered.

Bishop Murray then offered prayer, after which the Chair announced the temporary secretaries.

Mr. Abbott, of Massachusetts, offered a resolution that the rules of the last Convention govern this until otherwise ordered. The resolution excited great discussion, but was finally postponed.

A resolution was adopted that all resolutions relative to platform be referred to the Committee on Resolutions without debate.

The Chair announced that three representatives of the Woman's National Suffrage Association desired to be heard for ten minutes. The suggestion was received with cheers, and Miss Phoebe W. Cousins, of Missouri, in a brief speech, presented the claims of the Association. She was received with great applause.

Following is the full Committee on Resolutions: Missouri, S. C. Hardin; Maine, David B. Hastings; Minnesota, Daniel Bucks; Nebraska, Dr. G. L. Miller; New York, William Dorchester; Ohio, Thomas Ewing; Tennessee, John C. Brown; Vermont, James H. Williams; West Virginia, J. J. Davis; Massachusetts, Edward Avery; Indiana, D. W. Voorhees; North Carolina, Thomas Litgman; Oregon, M. V. Brown; Virginia, John A. Meredith; Rhode Island, L. M. Morgan; Delaware, John Gray; Kansas, Thomas L. Davis; South Carolina, S. M. Evening Session.
The Committee on Credentials reported that there were no contested seats [names] and that all the states in the Union were represented.

A petition was presented for the admission of delegates from the District of Columbia and the Territories. Adopted.

The Committee on Permanent Organization reported for Permanent President John A. McClelland, of Illinois, also a list of Vice-Presidents and Secretaries. Among them are the following from California: Colonel Jack Hayes, Vice-President; Geo. N. Cornwall, Secretary.

Marble, of New York, and Bocock, of Virginia, were appointed a committee to conduct Mr. McClelland to the chair.

SPEECH OF GEN. McCLELLAND.
Mr. McClelland being conducted to the platform, addressed the Convention as follows:
Gentlemen of the National Democratic Convention: I thank you for the distinguished honor which you have done me in directing me to preside over your deliberations. You are the delegates of the Democracy of the whole Union of thirty-seven states—once unanimately estranged, but now firmly united in one indivisible Republic—brothers of one political family, with the same heritage of liberty, under equal laws and heirs of one destiny. Shall we preserve and transmit that great heritage? Shall we make this meeting the most glorious in the history of free people? If your deliberations, fellow-Democrats, to-day, shall be wise; if your perception of the time is clear, our country and our politics shall be just and sagacious; if our sympathy shall be quick with the hearts of a great people, then, beyond all peradventure, we will transmit to our children and our children's children unimpaired this priceless heritage, and yours will be a better reason than the renown most prized by Paragard that the founders of a Republic are the preservers of a Republic.

There are no enemies of the Union to-day on this Continent except that administrative centralism which is congregating at the Capital the vital currents which ought to flow out through every part, giving life to the entire extremities of the body politic and energy to all its members. No enemies except that corruption which is the curse that centralism has never failed in any age or land to entail upon any Government. Centralism and corruption have imposed upon ten states the rapacious tyranny of carpet-bag rule, and since the restoration of peace have sold \$200,000,000 to their use. They have lusted the government of our Southern States and Northern cities with the same disease of extravagance and fraud. They have debauched our Federal Government itself, and made the names of scores of its high officers and public men a national scandal, an open shame. The record of the Republic in respect to waste, fraud, and the party which has been powerless to trail down and trample under foot its corruptionists, with stupendous efficiency comes before the people pleading itself to reform which it has proven itself incapable of. That same party has pledged itself to restore specie payments, while every year it has taken us further from specie payments. So it pledged itself to civil service reform, and then dropped it and nooked its reformers. So it pledged itself to protect American labor, and with its constitutional party has advanced, within half a century, from the condition of a huddle of petty and squalid provincial sovereignties to a foremost place amongst the nations of the earth? The reason of men must answer: partisan misrule and sectional misdirection. The Republicans, my friends, are not alone responsible. With them rests the disgrace, with us the follies. These twin agents of national misfortune, working under the miserable rule of factions have kept the people of the North and South asunder, and have supplied sustenance to corruption. They have disturbed values; they have unsettled prices; they have made our whole financial system a cheat and a snare. They have driven the best elements of political society into exile and have organized charlatanism into a sort of public policy, enabling the rogue to get a cheap advantage of his dupe, and sacrificing every popular interest to the lust of that oligarchy which has become so encrusted with power as to believe itself entitled to rule by the sheer force of its wrong doing. He was frequently cheered.

Bishop Murray then offered prayer, after which the Chair announced the temporary secretaries.

our children an inheritance of suspicion, prejudice and hatred. They have played the same nefarious game before, and encouraged by the timorous policy of our leaders in former Conventions they hope to achieve another victory through our fear, which made us resort to expedients and injudicious nominations outside of the Democratic party. Experience has shown the folly of such a policy, for every Republican vote which we gained, or hoped to gain, we lost the votes of thousands of our own people. Let the lessons of the past serve as a warning at this juncture. This is a struggle between Democrats, representing union, progress and prosperity, and Republicans, representing sectional strife, religious intolerance and the continuation of financial and industrial prostration. In such a contest victory must be ours. If we adopt a strong and unequivocal platform on all the cardinal questions which agitate the people, and place upon it a national Democratic, whose private character and public record will inspire confidence and that confidence into our ranks which alone can insure success, victory will be ours. The Republicans have once more unfurled the bloody shirt, that piratical flag with which they hope to capture the liberties of the people. Let us make again the Union under the banner of the Union; that flag which has never known, and will never know, defeat, either from domestic or foreign foes.

Mr. Chairman, I offer the following resolutions, which, with the consent of this Convention, I move be referred to the Committee on Resolutions:
First—We appeal to the honor and manhood of the American people to recognize the century of American union and independence by trampling under foot and extinguishing the flag which has never known, and will never know, defeat, either from domestic or foreign foes.
Second—We denounce the Republican party on this great issue as a party of false pretenses. It is a false pretense to assume the character of a national party and at the same time to be only by sectional division. It is a false pretense to assume the name of Union Party and at the same time to be a party of sectional division. It is a false pretense to assume the name of Liberal Party and at the same time to be a party of sectional division. It is a false pretense to claim the title of a progressive party and at the same time to be a party of sectional division. It is a false pretense to claim the title of a party of peace and at the same time to be a party of sectional division.

Several different delegations have sent resolutions against Chinese immigration. There is no doubt, from informal expressions in committee, that the plank will be incorporated. Judge Hager's resolution declares specifically against the importation of Mongolian labor for immoral purposes, and men under servile labor contracts, and invokes the whole power of the Government for its suppression.

It being announced that the Platform Committee would not be ready to report earlier, the Convention adjourned till 11 o'clock to-morrow morning.

TILDEN NOMINATED!
Mr. Lehigh, telegraph operator at this place, states that Governor Tilden was nominated for President on the second ballot.

There is also a report that Governor Hendricks, of Indiana, was nominated for Vice-President, and another that Senator Hagar of California had received that honor.

THREE CHECKS FOR TILDEN!
TURKEY.—The war question still remains unsettled. Latest news by cable from London June 27th, states that England declines to interfere. Gibraltar is being placed in complete condition for defence. The dispatches all indicate that hostilities are about to commence, and when they do, look out for something terrible.

Town and County Matters
STABBING AFFRAY.—On Sunday
last Samuel Caldwell and John Bache-
lor got into an altercation in the St.
Nicholas saloon, during which Cald-
well was stabbed by Bachelor, the
knife entering the cavity of the stom-
ach. All that can be ascertained in re-
gard to the matter is that they had
been playing cards, disagreed about
the game, and hence the quarrel.
Caldwell's wound proved to be a very
serious one and we understand there
are fears that it may prove fatal.
Bachelor was arrested and confined in
jail awaiting the result of Caldwell's
injury before he is examined.
"HONORABLE" MENTION.—The
Boonville (Mo.) Advertiser of June
16th says: Hon. John D. Stephens,
State Senator from Woodland district,
California, and an uncle of Col. J. L.
Stephens, arrived in this city on Mon-
day. He is a banker and a prominent
citizen of Woodland, and is now en
route for the Centennial."
TO THE BOYS.—On the Fourth,
during the procession, boys ought not
to use fire-crackers on account of
frightening horses. The Grand Mar-
shal and Assistant Marshal, particu-
larly request that they will set off their
crackers and other fireworks before or
after the procession has marched to
the Pavilion.
RETURNED.—J. C. Ball, Esq. has re-
turned from the East and accepted the
appointment of Governor Irwin as one
of the State Land Commissioners. Mr.
Ball enjoyed the trip, but his opinion
coincides with the unanimous verdict
heretofore rendered—that there is no
other country under the sun equal to
California.
WARM WEATHER.—The thermom-
eter at the hottest time of day has for
several days indicated a temperature
of from ninety-five to one hundred de-
grees. It is now getting cooler again,
and we shall probably be favored with
fine weather for the Fourth.
ROUGH AND TUMBLE.—Two gentle-
men engaged in the butchering busi-
ness had a little scrimmage the other
day upon the sidewalk. Each left
some of his whiskers, but carried away
dirt enough upon their clothing to
balance the account.
WARM DAYS.—The thermometer in
front of H. B. Wood's store on Mon-
day last marked as follows: At 9 A.M.,
90 degrees; at 12 M., 93; at 2 P.M., 102;
and at 6 P.M., 104. On Tuesday—at 9, 90;
at 12, 104; at 3, 110; at 6, 100. This is hot
enough.
STOCKHOLDERS MEETING.—It will
be seen by notice in our advertising
columns that a meeting is called of
the Stockholders of the Antelope
Grangers' Warehouse and Mercantile
Association, for the election of Direc-
tors.
M. E. CHURCH.—At the morning
service of the M. E. Church July 24,
the Pastor will read the Quadrangular
Address of the Bishop to his congre-
gation, at 11 A.M. A full attendance
is desirable. W. C. C.
FOR THE FOURTH OF JULY.—Geo.
Cutbush has fitted up a nice place in
Galbraith's Block for furnishing ladies
and gentlemen with ice cream, lemon-
ade, ginger beer, etc. He will of
course be well patronized.
POLI TAXES.—After July 1st fifty
percent will be added for those who
have not paid their poll tax—three
dollars instead of two on each recruit.
So says the Assessor, and this is his
last call.
"THY PILLOW OF CLAY."—We call
attention to this beautiful little poem
by Hood Alston, written in memory of
Woodland's own son and California's
pride, the late Hon. Wm. Wirt Pend-
gast.
CONSIDERATE.—The management
have shown great good sense in ar-
ranging to have the route of the pro-
cession thoroughly sprinkled before-
hand, so as to have the dust thoroughly
laid.
RE-ELECTED.—Mr. Viets was almost
unanimously re-elected School Trustee
for Woodland District at the election
on Saturday last, the vote standing as
follows: Viets, 131; G. N. Freeman, 1.
SCRIP PAYABLE.—Holders of county
scrip will see by his notice that the
County Treasurer is prepared to pay
certain pieces numbered in the adver-
tisement.
LOST.—On Sunday last, June 25th, a
large silver watch was lost on First
street, between the hours of 1 and 2
P.M. Upon its return to this office a
liberal reward will be paid.
ICE-CREAM.—The ladies of the
Library Association will sell ice-
cream at their rooms on the Fourth,
for the benefit of the Library.

FALSE REPORT.—The Mail last
week reported that the Fourth of July
poetries had nothing about the fire-
works, which it is not true, for they an-
nounce a "grand display of fireworks on
the common near the Pavilion." And
it will be by far the grandest dis-
play ever witnessed in this part of the
State, several hundred dollars having
been expended for this purpose.
SERIOUS LOSSES.—During the late
strong north wind in Colusa county,
Dr. Glenn's large warehouse at Jacinto
was blown into the Sacramento river,
and 320 acres of barley belonging to
the same gentleman was destroyed by
fire. On Monday last a fire occurred
in John Steth's grain field near Dixon,
Solano County, destroying 100 tons of
wheat; loss estimated at \$2,000.
IMMENSE PAPER.—The Centennial
Fourth of July number of the San
Francisco Spirit of the Times contains
40 pages the usual size of that paper.
The paper is tinted and finely illus-
trated. It shows an unusual amount
of enterprise on the part of the pub-
lishers, Messrs. Boreuck and Chase. It
would be an elegant number to send to
Eastern or European friends.
YOUR ATTENTION.—A. Nickelsburg & Bro.
must be doing a large business, for they are
receiving goods daily by express and freight.
It seems to us from the way their store is al-
ways crowded with customers, that the people
of this country are beginning to realize the
fact that a good article is the cheapest after all;
and it is universally conceded that they keep
only the very best of goods and sell them rea-
sonably.

and flags, we saw exhibited at A. Nickelsburg

Thy Pillow of Clay.
BY HOOD ALSTON.
[Written in memory of the late Hon. W. W. PENDGAST, whose life was an eminent success, and whose death the citizens of California were recently called upon to mourn. Where the winds come from the far away glittering isles of the tropical seas, Loaded with odors of balm and bay And olive and orange and all of these; When the roses grow tall and the willow Is bending in silence to-day; They have laid thee to rest on thy pillow, Thy pillow of clay. The world will go on and go over The same as it ever hath done; The grass will grow tall, and the clover Blush deep at the kiss of the sun. But never again will thou borrow One care from the cares of to-day, Or press as with sorrow, and the clover Blush deep at the kiss of the sun. Thy pillow of clay. Under the grasses and roses, Under the dew and the sod, Under the lilies and daisies, Hid in the silence of God. Out of our sight they have laid thee Deep in the earth to-day; Friendly hands fashioned and made thee Thy pillow of clay. Mother Earth, as if eager to press thee, Thy lips to her cold kiss press; Father God, as if eager to bless thee, Summoned thee quickly to rest; While we are waiting the blessing, Striving and waiting to-day, Thou art so peacefully pressing Thy pillow of clay. Under the blossoming roses, Under the dew and the sod, How silent and sweet the repose is That comes to the children of God! Then why should we weep for thee, Or why should we weep to-day? When thou art asleep on thy pillow, Thy pillow of clay. O life, thou art sweetest when fittest! O death, thou art loveliest still! Thy bath will never be the hill, Till the heart is laid under the willow! For angels shall roll away The stone, and smooth down our pillow, Our pillow of clay. RACES.—On Friday, June 30th, two running races will take place over the Woodland course. The first is a half-mile and repeat, free for all horses owned in the county; entrance \$50; purse of \$50 to second horse; four to enter three to start. The second race is a single half-mile dash, free as above; entrance, \$25 and a purse of \$25 added. On Saturday, July 1st, there will be two trotting races. First, by Rawson's "Jessie," Barnes "Tinner," Nixon's "Pioneer," and Locke's "Shylock." Entrance, \$25, and \$25 to second horse. Second, by Simmons' "Watcheye," Pockman's "John," Perry's "Dolly," Ogburn's "Nell," and Fitzgerald's "Nancy Till." Entrance, \$10; purse for second horse of \$10.
MUSICAL REVIEW.—We have received the June number of this excellent monthly, which is published by Sherman & Hyde, San Francisco. It contains twelve pages of choice vocal and instrumental music; also criticisms of concerts, entertaining correspondence, poems, miscellaneous matter, and a report of the annual examination of vocal music in the Public Schools of San Francisco, showing the status of the several schools. The music alone, in each number, is worth the subscription price, per year \$1.50. Published by Sherman & Hyde, San Francisco.
ROBERT HENDERSON.—Mrs. Maggie Henderson, of Sallalia, Petticoat county, Missouri, writes to Postmaster Walker, of this place, to ascertain if her hus-
band, whose name heads this item, is still in this vicinity, as she last heard from him at Woodland about five months ago. He is a carpenter by trade. Mrs. Henderson is much distressed about her husband. Anyone knowing anything of him can relieve her by dropping a line to her address, given above.
GRAIN MARKET.—Latest European arrivals, based upon opinions of the Mark Lane Express, which is acknowl-
edged authority all over the world, indicate that there will be no imme-
diate advance in the grain market unless a war, now seriously threat-
ened, should break out. Then, of course, there would be an advance, but to what extent it is impossible to conjecture. The price here is from \$1.35 to \$1.40 per cental.
RAIN PREDICTED.—The Sacramento Bee of Monday last contained the fol-
lowing: "Without all setting up for a weather prophet, and with a full knowledge that most signs fail in bad weather, the Bee predicts showers of rain at San Francisco and Sacramento within the next ten days."
LEGAL HOLIDAYS.—Governor Irwin has authorized a general suspension of business on the 31st and 5th of July by proclamation, making those days legal holidays, on account of the universal desire to take part in the Centennial Celebration.
DISPROVED.—A savage attack has been made upon Tilden, charging that he favored the Chicago peace platform, etc. It has been since clearly shown that Tilden opposed it with all his might.
SODA FOUNTAIN.—At Simpson's is the only place in town to get a nice ice-cold drink of soda water, flavored to suit the taste.
THE SINGING.—This will be a nice feature of the celebration. Quite a large choir is practicing for the occasion.
J. H. EATON & SON pay the highest price for poultry and eggs.
A Fragrant Breath and Pearly Teeth
Are easily obtained by cleansing your teeth daily with that justly popular dentifrice, SOZODONT. Composed of rare antiseptic herbs, it imparts sweetness to the teeth, a delicious aroma to the breath, and preserves intact, from youth to old age, the teeth. Acidity of the stomach will destroy the strongest teeth and its effects are counteracted with SOZODONT, and this pure tooth-wash protects the dental surfaces by removing every impurity that adheres to them. Ask your druggist for SOZODONT.

Centennial Proclamation by the President.
WASHINGTON, June 27th.—The following proclamation was issued yesterday by the President:
The Centennial anniversary of the day on which the people of the United States declared their right to a separate and equal station among the powers of the earth, seems to demand exceptional observance. The founders of the Government, at its birth, and in its feebleness, invoked the blessings of Divine Providence, and the thirteen colonies and 3,000,000 people have ex-
plained its meaning by the history of a commanding position, and for which fervent prayers were then offered. It seems fitting that on the occurrence of the hundredth anniversary of our exis-
tence as a nation a grateful acknowl-
edgment should be made to Almighty God for the protection vouchsafed our beloved country. I therefore invite the good people of the United States at the approaching 4th day of July, in addition to the usual observances with which they are accustomed to greet the return of the day, further in such manner and at such times as in their respective localities and religious associations may be most convenient, to invoke the aid of Almighty God for the preservation of our Union, and to devoutly thanksgiving to Almighty God for the blessings which have been bestowed upon us as a nation during the century of our exis-
tence, and humbly to invoke the con-
tinuance of His favor and of His pro-
tection.
In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington this 26th day of June, A.D. 1876, and of the Inde-
pendence of the United States of America the one hundredth.
U. S. GRANT.
By the President:
HAMILTON FISH, Sec'y of State.
A MOURNFUL MEETING.—The city papers have full accounts of what was intended to be a grand ratification of the Radical nominees for President and Vice-President, held in San Francisco June 21st. From the reports the *Yolo Democrat* concludes it was a Hayes ratification meeting, and says: "It is evident now, if not before, that there is sorrow in the camp of the enemy over the downfall of the Goliath of their party. His name was received with bursts of applause. The President of the meeting called him the fallen Warwick of the party and gushed about his 'mighty arm.' Mr. Phelps, Timothy Gay, called him a lion. The political filibuster of the Pacific Coast, Tom Fitch, exclaimed his store of worthy titles in honor, not of Rutherford Hayes, but Blaine. He called him gifted, gallant and glorious; lesser yet greater than Macbeth. He called him Rupert and white plumed Navarre. Hayes cut a poor figure by comparison in Mr. Fitch's speech. Then came in like strain John M. Coghlan, of tapeworm ticket notoriety. Bill Stewart, of the Enigma mine disgrace, concluded the mournful ex-
ercises. When he got through, an enthusiastic individual moved that Blaine be invited to come to California, and this proposition was received with rapturous applause. Poor Hayes and Wheeler came in now and then, but it was much more a gathering of the mourners than a justification meet-
ing. The lack of enthusiasm in the interest of Hayes was clearly demon-
strated and all the 'gush' of the talkers was wasted on the defeated and downcast Mr. Blaine."
Travelers' Attention!
You cannot have a better value than our journey from Hostetter's Stomach Bitters. Just prime medicinal agent will enable you to drink brackish water without making the risk of disordered stomach and bowels, will neutralize the influence of foul or miasmatic air, and will prove a most agreeable and powerful remedy in cases of indigestion, acting the fatigue of traveling, on long sea voyages, where the crews of whaling or other vessels are almost wholly restricted to salt meat, it has proved an admirable preventive of scurvy in the tropical seas it saves the sailor from ship fever and malaria. It has ever proved the surest reliance of the emigrant, exposed to the miasmatic com-
plications in regions where the country is newly cleared of timber, where the rays of the sun falling on stagnant vegetation, unex-
posed to them perhaps sties the creation, ex-
hale vapors, laden with the seeds of disease. Asthmatic, or the halitosis of the con-
stitution to the peculiarities of an unaccus-
tomed climate, is greatly facilitated by the regular use of this protective elixir, which imparts elasticity to every nerve and fiber that it is impossible for the vital energies to become depressed to a point inconsistent with health. In unfavorable conditions of the air, phlegm, the Bitters should be used twice a day, morning and evening being the best times. A par-
sance of this course when there is danger, as the system develops evidence of debility, will effectually neutralize the peril.
Without doubt, hundreds of people who will read this item are suffering with Kidney Disease in some form, which might be cured by the use of GLENN'S SULPHUR SOAP, which is a pure vegetable, and is mild and gentle in its action. One is a dose. Good quality, certainly.

**WHY ENCOURAGE IT.—An exchange says "The Enterprise calculates that Chico alone contributes \$34,000 annually to the support of the Chinese Em-
pire, that being the net earnings of the Chinese employed in that town." If Chico contributes that much to the Celestial Dominion what an amount the whole Pacific Coast must be fur-
nishing every year to supply the hea-
then coffers, of course depleting our own just that much. Some close and accurate figuring on this subject would be very interesting and would do more to open the eyes of our people to the great Chinese evil than anything else.**

THE DEMOCRATIC CONVENTION.
The Democratic National Convention is composed of 738 members. The dif-
ferent sections of the Union are repre-
sented as follows: From the Eastern States, 226 delegates; Southern States, 276; Western States, 212; Pacific States, 24. Under the two-thirds rule 495 are necessary to a choice.
STATE ELECTION.—The first important State election this year will be that of North Carolina, to be held early in August. The Governor and other State officers, with Legislature, will be voted for. Numerous amendments to the State Constitution, framed in 1868, will be acted upon.
DIED ON THE DESERT.—Three ped-
dlers, one woman and two men, per-
ished a few days ago in attempting to cross the Yuma desert. They refused to follow correct advice and lost their lives in consequence.

KING'S
PATENT STRAW-BURNER
The only successful burner yet introduced that can be attached to the common Wood Burning Engines. It is easy to keep the necessary amount of steam. Boys will find little instruction have fired the whole season; in many cases the Engineer has done it and attended his Engine. They have given entire satisfaction, as the following testimonials will show:
MOPRIS, October 8th, 1875.
MR. J. R. KING—Dear Sir: We have used your Attachment on our Automatic Hoadley Engine the past two seasons; it furnishes all the power necessary to run our large Pitt Separator with a Jackson Potter attached; it more than gave satisfaction to the farmers for whom we threshed; it required but little steam to furnish the necessary amount of steam; our engineer had a boy to fire it, and he attended the Separator and Engine; it was much easier than a wood burner, for when we wished to stop or move, all that was necessary was to close the door and everything was per-
fectly safe. We used no spark arrest, as there were no sparks at all. It was a perfect success in every particular. Yours, etc.

Loss in Delay.

[The following quaint but forcible verses are by Robert Southey, a poet of the reign of Elizabeth, executed at Tyburn, for his religion, in the year 1595.]
Shun delay, they breed remorse,
Take thy time, while time is lent thee;
Creeping snails have weaker force,
Fly thy fault, lest thou repent thee;
Good is best when soonest wrought,
Lingerer labor comes to naught.
Haste up all while wind doth last,
Tide and wind stay no man's pleasure;
Seek not time when time is past,
Sow speed is wisdom's leisure;
After wit is dearly bought,
Let thy force guide thy thought.
Time wears all his locks before,
Take thou hold upon his forehead;
When he flies he turns no more,
And behind his scalp is made;
Work adorned hath many ways,
Long demurs breed new delays.

All the large and respectable distillers in Chicago, thirteen in number, have pleaded guilty to the charge of conspiring to defraud the Government. Balknap's \$30,000 looks sleeky by the side of the little present of \$1,500,000 that Robeson made to Jay Cook & Co., out of the public treasury.
